

TIMIVRA REFERRALS

Partner Guide: How to Join & Earn

Thank you for helping students discover Timivra. This guide walks you through the referral programme, what you earn, exactly how to set up your partner account, and how to represent Timivra the right way.

What is the Timivra Referrals Programme?

Earn when students you refer keep learning with Timivra. Share Timivra Basic or Pro. You earn more for Pro, and more the longer they stay subscribed. Cash out from 100 points (■5,000 or \$5), with payments made 24 to 48 hours after approval. Approval takes 14 days.

How it works, in short

Apply: submit your details. Applications are reviewed via info@timivra.com, and trusted applicants can be auto-approved.

Share your code: get a unique code, a shareable link, a WhatsApp template, and view-only demos so people can see what they're buying.

Earn & cash out: points are for paid referrals only, and release after a hold period. Cash out from 100 points (■ or \$) via Paystack.

Rewards

Points are the same worldwide. Pro pays more than Basic, and there are retention bonuses at 3 and 6 months.

Nigeria	International
1 point = ■50 · cash out from 100 pts (■5,000)	1 point = \$0.05 · cash out from 100 pts (\$5)

Monthly plans

Action	Basic	Pro
Paid signup	10 pts (■500 / \$0.50)	25 pts (■1,250 / \$1.25)
Active month	3 pts (■150 / \$0.15)	8 pts (■400 / \$0.40)
3-month bonus	+10 pts (■500 / \$0.50)	+25 pts (■1,250 / \$1.25)
6-month bonus	+20 pts (■1,000 / \$1.00)	+50 pts (■2,500 / \$2.50)

Same point amounts whether the student pays in naira or dollars. Payout currency follows the partner's cashout choice.

Short Pro plans: biweekly and 7-day (international only)

Pro is also available on shorter billing cycles, but only for international students paying through Paddle. Nigeria (Paystack) currently offers Basic and Pro on monthly and yearly billing only; there is no biweekly plan and no 7-day one-time plan for Nigerian students. Please don't advertise a Nigeria biweekly or Nigeria 7-day plan, since it doesn't exist.

Action	Pro biweekly	Pro 7-day (one-time)
Paid signup	12 pts (\$0.60)	5 pts (\$0.25)
Each successful renewal	4 pts (\$0.20)	Not applicable
3-month / 6-month bonus	Not applicable	Not applicable

The Pro 7-day plan earns points on signup only. It doesn't earn active-month points or a 3-month or 6-month bonus, since it isn't a recurring monthly subscription.

Which reward amount applies is worked out automatically from the plan the student actually subscribes to (monthly, yearly, biweekly, or 7-day) and the region they paid in, detected from their payment and plan type. Yearly subscription rewards are still to be published; until then, don't assume a yearly signup earns the same as a monthly one.

Good to know: points are only earned for genuine, paid Basic or Pro signups. Creating a free account, visiting the website, or downloading the app does not earn points on its own.

Rules That Protect Everyone

These rules keep the programme fair for every partner and every student. Read them carefully before you start referring.

1. Paid referrals only: Free accounts do not earn points.
2. One personal code per partner: Each partner is permitted to have only one personal referral code.
3. No self-referrals or duplicate accounts: Partners must not refer themselves or create duplicate accounts to earn additional rewards.
4. 14-day reward hold: Every referral goes through a mandatory 14-day review before its points can be cashed out. During review, Timivra checks that the referral is genuine, that the referred student hasn't already registered or subscribed through another referral, that you followed the programme rules, and that there's no fraud, self-referral, duplicate referral, manipulation, refund, or chargeback involved. Points cannot be cashed out during this review. After 14 days, Timivra will either approve the referral, making the points available to cash out, or reject it if there's evidence of a problem. This is standard for every partner and is not a sign that anything is wrong with your referral.
5. Cancellations: If a student cancels their subscription, monthly rewards will pause, and you will be notified.
6. Refunds: Refunds may result in the reversal of related referral points.
7. Cashout requirements: You can request a cashout once you reach 100 points (■5,000 or \$5). Approved payouts are processed within 24 to 48 hours.
8. No misleading advertising: Do not make false, exaggerated, or misleading claims about Timivra, its features, prices, or rewards, and do not promise academic results, income, or benefits Timivra does not officially provide.
9. No spam or unsolicited messages: Do not send excessive promotional messages, spam, or unwanted ads through WhatsApp, email, SMS, or social media, and respect anyone who asks to stop receiving them.
10. No impersonation: Do not pretend to be a Timivra employee, official representative, or support agent. Identify yourself clearly as an independent referral partner.
11. No unauthorised discounts or promises: Do not offer discounts, special prices, refunds, or extra rewards unless Timivra has officially approved them. Only advertise Timivra's published prices and promotions.
12. No manipulation of referral tracking: Do not manipulate referral links, codes, checkout references, or account information to claim rewards you did not legitimately earn, including bypassing tracking or attribution rules.
13. Referral attribution is subject to verification: A referral only qualifies if correctly attributed through Timivra's approved system. Timivra may investigate unclear, disputed, or suspicious referrals before approving rewards.
14. No unauthorised use of Timivra branding: Use only approved logos, images, and promotional materials, exactly as provided. Do not alter the logo or present unofficial materials as approved Timivra content.

15. No paid advertising without permission: Get written approval before running paid ads using Timivra's name or logo, including on Facebook, Instagram, Google, TikTok, and other platforms.
16. No referral account sharing: Keep your login details and referral account secure. Do not sell, transfer, rent, or share your partner account or referral code with anyone else.
17. Accurate partner information: Keep your personal and payment information accurate and current. Timivra may delay payments or request verification if details are incomplete or suspicious.
18. Timivra may suspend or terminate accounts: Accounts that break these rules, engage in fraud, misuse the brand, generate suspicious referrals, or harm Timivra's reputation may be suspended or terminated, and unpaid rewards tied to invalid activity may be cancelled.
19. Rewards are not guaranteed: Joining the programme does not guarantee earnings. Rewards depend on successful, eligible paid referrals and compliance with these rules.
20. Programme changes: Timivra may change rewards, eligibility, payment procedures, or other programme terms, and will notify partners of significant changes where appropriate.
21. No unauthorised collection of student information: Never collect or request a student's passwords, card details, or other sensitive information on Timivra's behalf. Students should use official Timivra channels.
22. Conflicts of interest: Do not use a position in a school, organisation, or community to pressure students into subscribing. Referrals should be voluntary and based on honest information.
23. Compliance with applicable laws: Follow applicable laws when promoting Timivra, including rules on advertising, privacy, electronic communications, and consumer protection.
24. Pending rewards after termination: If an account is suspended or terminated, pending rewards may be reviewed. Rewards tied to fraudulent, invalid, or rule-breaking activity may be withheld or cancelled.

Understanding Your Rewards in Detail

What counts as a successful referral

A successful referral is a genuine new customer who completes a qualifying paid Basic or Pro purchase through your referral code, link, or the referral-claim process, and whose payment is confirmed and not fraudulent, duplicated, or reversed.

Does count: a new student who pays for Basic or Pro using your code or link.

Does not count: free sign-ups, website visits, app downloads, or watching a demo without a paid purchase.

How attribution works

Students should enter your code at checkout, or complete the referral-claim process at </referrals/claim> using their Paystack reference. Share only your own code, never alter payment references, and keep in mind that attribution may be verified before points are approved.

Retention rewards, upgrades, and cancellations

Active-month and retention bonuses reward subscriptions that stay paid and in good standing. If a referred student cancels, your future monthly rewards pause until they resubscribe. Upgrades, downgrades, and reactivations are reviewed individually against the current reward structure, so please don't promise students a specific reward outcome for these situations.

Available, pending, and lifetime points

Available points: approved and ready to cash out.

Pending points: recorded but still inside the 14-day hold or another verification step.

Lifetime points: your total earned over time, including points already withdrawn. This is not the same as what you can currently cash out.

Currency and payouts

Point values are the same worldwide, but the payout currency follows your cashout choice. Payment-processing charges or currency conversion may apply, so treat any conversion estimate as approximate rather than guaranteed.

If a referral is missing or a payout is delayed

Contact info@timivra.com with your partner name, referral code, the approximate date of the referral, and the relevant payment reference. Timivra will investigate using its internal records; reporting an issue does not automatically guarantee points will be added.

Fraud prevention and verification

Every referral goes through the same 14-day review, whether or not anything looks unusual. Timivra checks for self-referrals, duplicate accounts, manipulated tracking, previously-referred students, and suspicious payment activity. Only after a referral is approved, at the end of the 14 days, do its points become available to cash out. Cooperating with reasonable verification requests helps your rewards move faster, not slower.

Payments, Checkout Regions, and Approvals

Nigeria vs. outside Nigeria checkout

Where a student pays depends on where they are. Students in Nigeria pay in naira via Paystack; students outside Nigeria pay via Paddle, which handles international cards and local currencies. Always point students to Timivra's official pricing and signup links, or your own referral link from the partner dashboard, rather than an old or unofficial payment link. Never create or share your own payment links.

Plan availability also differs by region: Nigeria offers Basic and Pro on monthly and yearly billing only, while international students can also choose Pro biweekly or Pro 7-day. See "Short Pro plans" under Rewards for details.

Nigeria checkout: timivra-auth.vercel.app/pricing?region=ng

International checkout: timivra-auth.vercel.app/pricing?region=intl

General site, for sharing Timivra: timivra.com

Payment reference for the referral-claim process

If a student needs to use the referral-claim process instead of entering your code at checkout, they'll need the payment reference from their receipt: a Paystack reference for Nigerian payments, or a Paddle transaction ID (usually starting with txn_) for international payments. Tell students to use the exact reference from their payment email, not one they make up. Attribution is verified, so an invented reference won't count.

Referral-claim page: timivrabusiness-auth.vercel.app/referrals/claim

International payouts may be manual

Cashouts for Nigerian partners are processed through Paystack Transfer. For international partners, Timivra cannot always auto-pay through the same rails, so international payouts may be handled manually and can occasionally take longer than the usual 24 to 48 hours. If that happens, Timivra will let you know. Whichever country you're in, keep your payout details accurate and current.

How long approval takes

Applications are usually reviewed within a few business days. Trusted applicants may be auto-approved sooner. You'll hear from Timivra by email once your application is approved or rejected. Once approved, log

in with the email and password you created to unlock your dashboard and referral code.

Apply: timivrabusiness-auth.vercel.app/referrals/apply

Login after approval: timivrabusiness-auth.vercel.app/referrals/login

Where to find official logos and brand assets

Only use Timivra logos and images provided or approved by Timivra. Don't recolour, stretch, distort, or add badges to the logo, and don't source it from a random search result.

This Guide vs. the Partner Agreement

This Guide explains how the programme works and how to use it day to day, and it can be updated as the programme grows. The Timivra Referral Partner Agreement contains the binding rules you agree to when you join. If anything in this Guide ever conflicts with the Agreement, the Agreement takes priority.

Promoting Timivra the Right Way

You may

Share your approved referral link and personal code.

Use approved promotional images, videos, and demos.

Explain Timivra's plans honestly and demonstrate approved features.

Share your genuine experience using Timivra.

Please don't

Claim Timivra guarantees higher grades, scholarships, or income.

Advertise false discounts or invent features Timivra doesn't offer.

Misrepresent prices or the referral reward structure.

Present your personal opinion as an official Timivra statement.

For example, you can say: "I use Timivra to organise my study routine and track my progress." Avoid saying: "Timivra guarantees you will get an A in every subject." The first is your honest experience; the second is a guarantee Timivra can't back.

Disclose the relationship

Be transparent that you earn when someone subscribes through you, for example: "I'm a Timivra referral partner. If you subscribe through my code, I may earn referral points." Don't present yourself as a neutral reviewer, and don't pressure students to subscribe.

Respect student privacy

Never request or store a student's passwords, card numbers, PINs, or banking details. If a student shares personal information unnecessarily, don't forward it. When sharing screenshots or testimonials, remove or protect any private details.

What you're not

As a referral partner, you're not a Timivra employee, technical support agent, or account administrator. If a student has a payment or account issue, direct them to info@timivra.com rather than trying to fix it yourself or promising a specific outcome.

Keeping Your Account Secure

Use a strong, unique password and keep your email account secure.

Never share your login or let someone else operate your account.

Log out of shared or public devices, and review your dashboard regularly.

Report suspicious activity to info@timivra.com as soon as you notice it.

If the Programme Changes

Timivra may update rewards, eligibility, payment procedures, or other terms as the business grows.

Significant changes will be communicated where appropriate; please keep your promotional materials in line with the latest published prices and terms rather than outdated ones.

Who to Contact

Reach info@timivra.com for application questions, missing referrals, payment or cashout issues, technical problems, fraud concerns, or branding approval requests. Include your partner name and referral code so we can help faster.

How to Open Your Referral Account: Step by Step

Follow these steps to apply, get approved, and start sharing your code.

Step 1: Go to the referrals page

Visit timivra.com/referrals in your browser. This is our referrals home page. It explains the programme and is where you'll start your application.

timivra.com/referrals

Step 2: Click "Apply to join"

On the same page, click the blue "Apply to join" button, near "See Basic & Pro demos" and "Partner login."

The "Apply to join" button on the referrals page.

Apply to become a partner: application form.	Step 3: Fill in your application details A form will open. Enter your full name, email, and a password you'll use to log in later. Add your phone and WhatsApp number, your school or city, and a short note on why you want to join, then submit. Already have a Timivra account? Use that same email and password when applying.
"Application received" confirmation.	Step 4: Wait for your application to be reviewed Applications are reviewed via info@timivra.com . Trusted applicants can be auto-approved. Once submitted, you'll see an "Application received" confirmation with your referral code and a "Partner login" button.
Partner login: sign in with your email and password.	Step 5: Click "Partner login" and sign in Tap the "Partner login" button (or the Login link in the menu) and sign in with the same email and password you created when you applied.
What you'll see if you sign in before approval.	Step 6: If you're not approved yet If you try to log in before your application has been approved, you'll see a message letting you know your partner account isn't approved yet. Just wait for our confirmation. You'll get access as soon as it's approved.
Your partner dashboard once approved.	Step 7: Once approved, sign in to reach your dashboard As soon as your application is approved, signing in with the same email and password takes you straight to your partner dashboard, showing your code and points.

Your Dashboard, Once Approved (Desktop View)

After signing in on a computer, here's what you'll see and be able to manage.

Your referral code, points, and share tools

Partner dashboard: your code, available/pending/lifetime points, and share tools (share link, WhatsApp template, view-only demos).

Bank details and cash out

Add your bank details for Paystack payout, and request a cashout once you've reached 100 points.

Your Dashboard, Once Approved (Mobile View)

The dashboard works the same way on mobile. Here's what partners see on their phone after signing in.

Share tools and your referrals

Share tools, your (masked) referrals, and the start of your bank details.

Bank details and cash out

Bank details for Paystack payout, and the cash out box.

Cash out and cashout history

Request a cashout once you've reached 100 points, and check your cashout history.

Ready to Refer Timivra?

Apply now at timivra.com/referrals. Once approved, you'll get a login, your own code, and demos you can show your audience without editing anything.
